Sliding Glass System

The combination of the sliding glass system with Aerolux ensures efficaciously protection from wind and rain. The aluminium frames which cover each glass provide a maximum safety standards and practicality without giving up the elegance.

Zip System

The minimalist, slimline, contemporary design of the zip system provides comfortable shade and protects against the UV rays. The system includes motorised painted aluminium structure, entirely powder-coated with stainless steel bolts and screws.

Guillotine Glass System

The guillotine system can be adapted to Aerolux system which offers a maximum clear span that provides unobstructed view and a minimalistic style with no vertical frames. The system is operated by just the touch of a button.

System includes Led Stripe Dimmer Lighting and RGB Hidden Stripe Lighting options. Led Stripes on sides illuminate all around of system and create a cosy atmosphere. RGB Hidden Stripe Lighting ultimates luxury by creating distinctive atmosphere in outdoor living areas with infinite color options.
