

Aluminium carports

in 3 standard varieties

Carports for optimal protection

Gardendreams has a wide variety of carport systems that offer possibilities in abundance. Everything is possible, from a carport system that is attached to the wall of your house to a freestanding type. Carports are available in the following sorts: flat, saddled or arched roof tops. Just like our verandas, our carports are made of aluminium material that ensures for low maintenance and a guaranteed lifespan.

Flat roof carport

Single- and double-arched carport

Single- and double-saddled carport

Tip!
Protect your vehicles from the weather with an aluminium carport!

Low-maintenance carports to

protect

your vehicle
